SUMMARY

Full Stack Web Developer with ignited passion to learn, to create, and to improve.
I am a graduate of the University of Arizona Full-Stack Web Development coding bootcamp program with continuous focus to advance my skills. I translate my passion for languages, learning and crossing the barriers into the creative force of web development's vast possibilities to deliver human-focused, user-friendly web solutions to wherever the need may be. Effective at combining creativity and problem solving to develop applications using HTML, CSS, Bootstrap, JavaScript, React among other programming languages, frameworks and technologies.

TECHNICAL SKILLS

HTML5, Git, GitHub, GitLab, CSS3, Bootstrap, JavaScript, JQuery, JSON/BSON, Firebase, ReactJS, Redux, Node.js, MySQL, Express, Express-Handlebars, API's, AJAX, MongoDB, Travis CI

PROJECTS

DoGood | github.com/acl447/do-good **|** mysterious-bastion-94447.herokuapp.com
- Full-stack Mern App connects neighbors and allows them to give or receive goods or services based on their needs.
- Responsibilities included to set up the database using MongoDB, create the back-end folders structure including controllers, models, routes and scripts, as well as to help with rendering help with Auth0 and creating components displaying posts.
- Technologies used: MongoDB, React.js, Auth0, Sass, JQuery, JavaScript, HTML, Bootstrap, Express and Node.js

Bamazon | github.com/sijanek/Bamazon **|** sijanek.github.io/Bamazon
- Bamazon is an Amazon-like storefront with a customer view. As a customer, you can order items and deplete stock from the store's inventory
- Technologies used: Node.js, MySQL, Express.js, JavaScript

Want to get away? | github.com/acl447/Project1-Team-Targaryen |
| acl447.github.io/Project1-Team-Targaryen
- Helps users to pick their next travel destination, dynamically rendering travel information including images, hotels, actual weather, as well as comment section
- Responsibilities included to help create the modals with Bootstrap to display the hotel information and create brief summary under each image
- Technologies used: HTML, CSS, Bootstrap, JavaScript, jQuery, Firebase, Google Places API and Open Weather Map API

EXPERIENCE

Substitute teacher/Student Aide   2012 – 2019
Gilbert Christian Schools, LLC
Gilbert, AZ
Applied patience, creativity, problem solving, and critical thinking skills, whether in class management or decision making. Provided assistance to an individual student. Collaborated with his teachers to ensure student's academic growth.

Production Control/Customer Service   1996 – 1998
Motorola
Toulouse, France
Utilized skills to adapt quickly, to work and learn at a fast pace. Collaborated and communicated well with co-workers, managers and other departments. Responsibilities included to plan, coordinate and communicate with the customer and the production to ensure customers' demands were met to their highest satisfaction.

EDUCATION

University of Arizona, Gilbert, AZ
Full Stack Development Bootcamp
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

Technical University of Ostrava, Czech Republic
Faculty of Economics   1989 – 1991
Faculty of Mining and Geology   1983 – 1994
